Gifted Education Curriculum
K-12 Gifted Education Curriculum

- Overarching Skill Strands
  - Critical & Creative Thinking Skills
  - Problem Solving Skills
  - Research Skills
  - Technology Skills
  - Leadership Skills
  - Social & Emotional Coping Skills

- Part of students’ time spent on curriculum content

- Skill strands consistent across schools; activities may differ among schools

Education Beyond Expectations
K-12 Gifted Education Curriculum

- Collaboratively developed strands, units, activities
- Individually developed strands, units, activities
- Capitalize on the interests and passions of the students each year
- Small group and individualized experiences
Beyond Elementary School
Gifted Education Class

- Grade level time with gifted education teacher and other students identified as gifted
- Other needs met individually
- Half of the time on IEP goals; half of the time on curriculum elements
Elementary School Sample Activity

What is this artifact? What was it used for? Who would have used it?

Ethiopian Healing Sticks

Education Beyond Expectations
Embedded Into the Curriculum

- Introduces a unit on cultures
- Students create an original culture with artifacts, customs, and many details
- Students share their culture with another school
- Work like archeologists to discover details about the people behind the cultural information
Beyond

Potential Topics

◦ Wide range of potential topics
  ∷ Philosophy
  ∷ Roller Coaster Physics
  ∷ Stock Market
  ∷ Mystery Disease
  ∷ Archeology
  ∷ World War I
  ∷ National Treasure
  ∷ Amazing Race
  ∷ Robotics
  ∷ Many Others

◦ Dependent on students’ grade levels and interests

Education Beyond Expectations
Middle School

Education Beyond Expectations
Guided Discovery Class

- Time with gifted education teacher at least 45 minutes every other day
- Other needs met individually
- Half of the time on IEP goals; half of the time on curriculum elements
Middle School Sample Activity

How big is this?
Where would it be found?
What is this?

Human Lung Alveoli – Less than a nanometer

Plaque on a tooth – Less than a nanometer
Embedded Into Curriculum

- Introduces personalized research using critical thinking or problem solving
- Introduces scientific approach to research and investigation
Potential Topics

- Wide range of potential topics
  - Toy Box Leadership
  - Debate
  - Six Word Stories
  - Service Learning
  - How Big is Big
  - Inventions
  - Seven Habits of Highly Effective Teens
  - Future City
  - Robotics
  - Many Others

- Dependent on students’ grade levels and interests
High School

Education Beyond Expectations
Gifted Education Class

- Semester class meets at the same frequency as general education classes
- Other needs met individually
- Students tend to be future focused
- Individualized options and experiences; group curriculum elements

Education Beyond Expectations
High School Sample Activity

- Work with a partner
- Read your question
- Prepare for 3 minutes to talk about your topic
- Deliver your 1½ to 2 minute impromptu speech to your partner 😊
Embedded Into Curriculum

- Spontaneous critical thinking and problem solving
- College readiness
- Interview preparation
- Questions are college application essay prompts or interview questions

Education Beyond Expectations
Potential Topics

- Wide range of potential topics
  - Leadership development
  - Service Learning
  - Developing Creative Thinking
  - Research Skill Development
  - Developing Test Prep Skills
  - Investigating Specific Careers in Depth
  - Exploring Selective Colleges
  - Individualized Studies
  - Specific Social & Emotional Topics
  - Many Others

- Dependent on students’ grade levels and interests
Gifted Education IEPs and Special Education Elements
Special Education for Gifted Education

- Gifted Education is a provision of special education in Kansas
- School districts decide how to find and serve students (state does not define)
- Special education law (usually) applies to gifted education
- Students identified as gifted have an IEP
The Gifted Education IEP

- Annually reviewed document
- Details several aspects of student’s special education experiences
- Team decisions about content
- Document at meeting is a draft
- Parents can request a meeting anytime
  - Some meetings are not IEP meetings
Required Elements

- Statement of Present Level of Academic Achievement and Functional Performance
- Need-based Goals
- Gifted Education Services
- Parent concerns
- Placement Conversation
Additional Requirements

- Notice of Meeting (10 days)
- Offering Parent Rights in Special Education in Kansas document every year
- Triennial conversation about whether a reevaluation is needed
  - Gathering new data is less common
The IEP Team

- Makes decisions about the IEP
- Parents are part of the team
- Team members include
  - Student (when old enough to participate)
  - Parents/guardians/appointed adult
  - General education teacher(s)
  - Special education teacher
  - Administrator (or designee)
  - School psychologist (sometimes)
The IEP Meeting

- Scheduled with you by teacher, para
- Paperwork emailed to you
- Parent Rights in Special Education doc emailed to you
- Draft of IEP provided prior to meeting
The IEP Meeting

- Recommend teachers use an agenda
- Meeting includes required attendees
- Attendees may be excused—exception to the norm
- Major areas of the IEP reviewed (not typically read verbatim)
- Parent concerns discussed
The IEP Meeting

- All team members should participate actively
- Signing the IEP shows attendance
- Any consent items are included on a separate form (PWN)
Consent Items

◦ Initial evaluation
◦ Placement in gifted education (initial meeting)
◦ Changes in services (change of 25% or more)
◦ Changes in placement (not location)
◦ Reevaluation
◦ Ending services
Consent Not Needed

- Student goals
- Programs/curriculum used to act upon goals
- People providing services
- People attending meetings (required roles must be present)
Can my child’s IEP be at the beginning of the year?

IEP meeting dates correspond to the date of the previous year’s IEP meeting. It wouldn’t be possible for middle school or high school teachers to hold IEP meetings for all students at the beginning of the year, so it is preferable for meetings to remain in the same time frame as the initial IEP meeting.
Frequently Asked Questions

◦ How many general education teachers have to attend my child’s IEP meeting?
  At least one general education teacher must attend.

◦ Can I request the teacher I want to have attend my child’s meeting?
  You can request a teacher to attend, but it may not be possible for that person to attend.
Frequently Asked Questions

- How do I access my child’s IEP progress reports?

In ParentVue of Synergy, there is a Special Education link on the left side of the screen. Clicking on it will open an area with date links to the PDF of the IEP and the PDF of the most recent IEP progress report.
Frequently Asked Questions

- Do students participate in the IEP meeting?
  Typically starting at 5th grade, students attend their IEP meetings and participate in the discussion.

- Do students like their IEP meeting?
  Some do, but others do not. For some, it is too much emphasis on them by too many people. We consider IEP meetings to be high stakes meetings because of this.
